Democrats know that for twenty years THZ SUN has fought in the front line for Democratic principles, never wavering or weaking in its loyalty to the true interests of the party it serves with fearless intelligence and disinterested vigor. At times opinions have differed as to the best means of accomplishing the common purposes, it is not The SUN'S fault if it has seen further into the milistone.

Eighteen hundred and ninety is the year that will probably determine the result of the Presi & wm-144 dendal e ection of 1842, and perhaps the for tunes of the Democracy for the rest of the century.
